

Storytelling One on One

Use storytelling as your means of expression, relaxation and enjoyment.

Do you like journaling?

'Where do I start?'

'How do I start?'

'What shall I write about?'

Discover your way into this liberating and meaningful process.

Are you looking for a special and personalized gift?

A short story will be a unique present.

If you like you can enhance it with a sketch, photos or a little collage.

Do you enjoy telling stories to your (grand) children and friends?

Try out new methods to do this without a book.

Do you work with children, adolescents or the elderly?

Storytelling is a great way to communicate, teach and entertain at the same time.

Are your head and heart full of contradictory thoughts and emotions that keep you awake at night?

Explore a way to put them on paper, get release and new insights at the same time.

Each 60 minutes session is designed for your individual focus.

You can book a single session or a series of three or more.

Get in touch with me for a booking or if you would like to know more:
